SUMMARY

Full-stack developer with hands-on experience building responsive web applications using JavaScript, React, and Node.js. Completed an intensive software engineering program at TripleTen, with a focus on real-world, production-ready projects. Background in managing client-facing projects brings strong problem-solving, communication, and attention to detail to development teams.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Bootstrap, Styled Components, C# (basic), ASP.NET Razor

Backend: Node.js, REST APIs

Databases: MongoDB, NoSQL, SQL

Tools: Git, GitHub, Postman, VS Code, npm, Figma, Visual Studio

TECH PROJECTS

Landing Page Development (iList Tech)

Responsive marketing pages designed to improve user engagement and conversions

- Built 10+ responsive landing pages using HTML, CSS, and JavaScript
- Collaborated with designers and stakeholders to iterate on UI/UX improvements
- Implemented reusable components to speed up development across projects
- Delivered projects on tight timelines while maintaining performance and accessibility

Full-Stack Web Applications (TripleTen Projects)

End-to-end applications simulating real-world product development

- Developed full-stack apps using React, Node.js, and MongoDB
- Designed RESTful APIs to handle user authentication and data management
- Structured databases to support scalable and efficient queries
- Deployed and tested applications to ensure reliability and usability

WORK EXPERIENCE

Freelance Web Developer — iList Tech (Remote)

04/2025 – 02/2026

- Delivered 10+ responsive landing pages, improving client web presence and user experience
- Collaborated with team members and clients to refine designs and meet project goals
- Implemented new features and page structures to support marketing campaigns
- Consistently met deadlines in a fast-paced, client-driven environment

Independent Contractor — Self-Employed (Newnan, GA)

01/2016 – Present

- Managed end-to-end home improvement projects, coordinating timelines, materials, and client expectations
- Improved project efficiency and client satisfaction through clear communication and planning
- Built long-term client relationships through consistent delivery and accountability
- Adapted to changing requirements and deadlines, strengthening problem-solving and time management skills

EDUCATION

TripleTen — Software Engineering Certificate

Completed: 03/2026

- 10-month intensive program focused on full-stack development
- Built multiple real-world projects using modern JavaScript frameworks and backend technologies

HONORS

- “Damian was great to work with on our landing page project. He was always eager to deliver and went the extra mile to make sure the project was not only functional, but excellent.”

Joe Peterson: CEO iList Tech
(214) 725-5961 | joe@ilisttech.com

- I've hired hundreds of developers over the years, and I can tell when someone has the aptitude, willingness to learn, and ability to communicate that would make them a great team member.

Damian has all of these in abundance. He would be a great addition to any enterprise development team.”

Brian Porter: Excel Web Interactive
